

My Bimbo Dreams - Season 1

By Satyr Games

Genre

Erotica, real-world setting, interactive fiction.

Category

Erotic Visual Novel.

Setting

Real-world. No magic or science fiction elements although porn logic and light bending of reality are acceptable.

Look

3D Renders & Animations using Daz3d software, images progressing the story rather than sprites over backgrounds. The overall feel/tone of the images needs to be warm and, at times, playful.

Fetishes

The Game primarily focuses on *corruption*, *bimbofication/transformation*, *twisted romance*, *harem*, *nts/ntr* and *control* (Pimp). Our primary goal is to tap into the relatively unexplored and promising "bimbo" niche within the adult gaming world.

Concept

A lighthearted story. Randall has quit art school out of frustration at not being allowed to work in his preferred style and spurred on by the end of his relationship with his girlfriend Scarlet. He returns to the house where he grew up to focus on working as a self-employed artist. To facilitate this he depends on the kindness of the woman who helped raise him, his landlady Sue. Upon his return, he finds out that Sue is thinking about getting breast enhancements. Randal has long harboured an attraction to Sue and is taken aback to learn that she will be doing something that plays into his long-held fetish for bimbos. After the surgery, he is motivated to change Sue's perception of him and push her further into the bimbo aesthetic.

He is aided in this by Sue's friend Lucia, a highly promiscuous woman who desires to see her perfect friend fall from grace. Lucia will act simultaneously as help to Randall but also as an antagonist as she pushes Sue in ways that Randall may or may not approve of.

The game will focus on Randall establishing a relationship with Sue and his efforts to push her into a bimbo aesthetic. Players will make choices during the game that will see Randall's attitude shift between 'Pimp' Randall and 'Cuck' Randall. The first route will see him acting in a more dominant role with Sue and the other will see Randall in a more submissive role.

Gameplay Overview

The game will follow a single narrative that follows the adventures of Randall and Sue. Player choices will increase or decrease Randall's domination which will impact dialogue and how scenes within the story play out depending on the total of that variable. Another variable will exist that will impact how corrupted Sue is by outside forces. These may result in variations within the scenes that will make Sue interact outside of Randall's interests. The story will not diverge until the end where multiple endings will apply based on choices throughout the game.

The game will also include other mechanics to enhance player interaction. These will include a mobile phone that will allow access to text messages, social media, notes (player quests) and a gallery of images akin to a phone gallery. It will also include mini-games which at this point are solely a quick-time event system but other opportunities will be explored.

Variables

SueBi

A continuation from the first version that reflects Lucia's influence on Sue and how far Sue is prepared to push situations of her own will. Almost akin to a corruption level but one that is outside of Randall's control

RanPimp, RanCuck, RanHarem

The three different states that the player establishes at the start of the game and dictates how the game will be played.

RanCuck - A pure NTR/Cuckold route

RanHarem - A no-sharing, vanilla, harem option

RanPimp - Sits between the two with a dominant Randall who shares his love interests for his own fun/benefit.

Each of these routes has a unique stat that impacts things as the game goes on.

RanCuck - Respect

Options where Randall isn't honest or he pushes the girls to go further risk them losing "Respect" for him. As the game goes on, they may start doing things selfishly or sometimes even cruelly and Randall will risk losing them at the end of the game

RanHarem - Love

Options that tug at the girls heart strings may increase the Love score which will impact the end as to who ends up in Randall's harem.

RanPimp - Loyalty

A firm hand or standing up for them may increase the girl's loyalty. A loyal girl will be more prepared to do whatever Randall tells them to do and a low score may result in them no longer working in Randall's best interest.

Plot

Structure

The game will be broken up into 3 Acts/seasons each broken into several chapters/episodes (aka Updates). Each of these Acts will be considered a full release of the game and will include a complete section of the story. Each Act will be broken down into episodic releases with a regular update schedule that will be supported through a subscription system. Each episode will be somewhere in the order of 300 to 400 hundred renders. An Update will typically contain three parts and should aim to contain a decent quantity of adult material to satisfy the desires of the paying subscribers.

Season 1

Overview

This first part will see the introduction to the story and establishment of the main characters. The concept of the game will be introduced and the story will begin.

Randall returns home to encounter Sue and Lucia. He learns of the breast enhancements and we learn of his fetish and feelings for Sue. There is a period of adjustment as Sue returns. Randall takes inspiration from Sue to create some artwork that looks a lot like her and finds some success online with it. Randall and Lucia both start pushing Sue to dress more sexily but she puts up some resistance. Lucia gives her old clothes and encourages Sue to dress more sexily when buying new ones.

Lucia discovers that Randall has a crush on Sue and then finds out that he is making erotic art based on her. She attempts to blackmail him into helping her corrupt Sue as she is jealous of how perfect Sue is. She also knows that Sue used to be very sexually adventurous and wants that side of her to return. Randall stands up to Lucia and confesses his feelings about Sue to her, but tells her that he won't be pushed around. This excites Lucia and she agrees to help Randall instead, deciding it to be a much more exciting prospect although she still harbours her own ambitions in Sue's corruption. The story progresses as they push Sue and find ways to make her dress and behave more sexually.

Things are interrupted by the arrival of Max who holds forgotten knowledge of Sue's past. He now attempts to take Sue for his own and has some limited success. Meanwhile, he encourages Sue down a similar path of opening up sexually. His attempts to take Sue for himself, culminating in an attempt to blackmail her using old photos he stole from her years ago. This is successful to varying degrees based on variables. Before he can use the blackmail to get everything he wants, Randall finds out his plans and throws him out of the house.

This is a catalyst for a change in Sue's perception of Randall and she starts to see him as a man and have romantic feelings for him. The final part of the Season will focus on her coming to accept that she has sexual and romantic feelings for Randall and she will take further steps into the Bimbo lifestyle as she wants to do things that please him. This also starts her own fascination with the lifestyle and she begins to explore it as she begins to find a lot exciting about it (Making some more "minor" changes in her appearance e.g. Botox).

The Season culminates in her giving herself to Randall in a moment of wild passion that she comes to feel regret for leaving the first act on a feeling of uncertainty...
